

SISTEMA ALLINEA

La nostra nuova cerniera per profili

Nuova CERNIERA 100% Made in Italy progettata dal reparto interno R&S di Gruppo Pozzi. Sviluppata per essere facilmente integrata nei profili d'alluminio e risultare praticamente invisibile. La sua struttura dispone all'interno di un sistema ammortizzato con chiusura automatica, grazie ai quali si garantisce la perfetta aderenza dell'anta chiusa alla struttura dell'armadio.

La cerniera ha un'apertura massima di 270 gradi e la regolazione dell'anta può avvenire nelle tre direzioni. Il telaio portante è realizzato con profili in alluminio anodizzati o verniciati, con la personalizzazione di ante in vetro o legno. Telaio e cerniere vengono spediti smontati. L'assemblaggio avviene mediante avvitamento di semplici viti.

Our new hinge for profile

New HINGE 100% Made in Italy designed by the internal R&D department of Gruppo Pozzi. Developed to be easily integrated into the aluminum profiles and be practically invisible. Its structure has an internal cushioned system with automatic closure, thanks to which the perfect adherence of the closed door to the structure of the cabinet is guaranteed.

The hinge has a maximum opening of 270 degrees and the door can be adjusted in three directions. The supporting frame is made of anodized or painted aluminum profiles, with the customization of glass or wood doors. Frame and hinges are shipped unassembled. The assembly takes place by fixing simple screws.

- * CHIUSURA AUTOMATICA
Automatic closing
- * AMMORTIZZATORE INCORPORATO
Built-in damper
- * APERTURA 270 GRADI
270 degrees opening
- * REGOLAZIONE NELLE TRE DIREZIONI
Three way adjustment
- * TELAIO ANODIZZATO O VERNICIATO
Available on anodized or painted frame
- * ANTA TELAIO CON VETRO E ANTE IN LEGNO
Door frame with glass and wood doors
- * FISSAGGIO CERNIERA TRAMITE VITI
Hinge fixing with screws

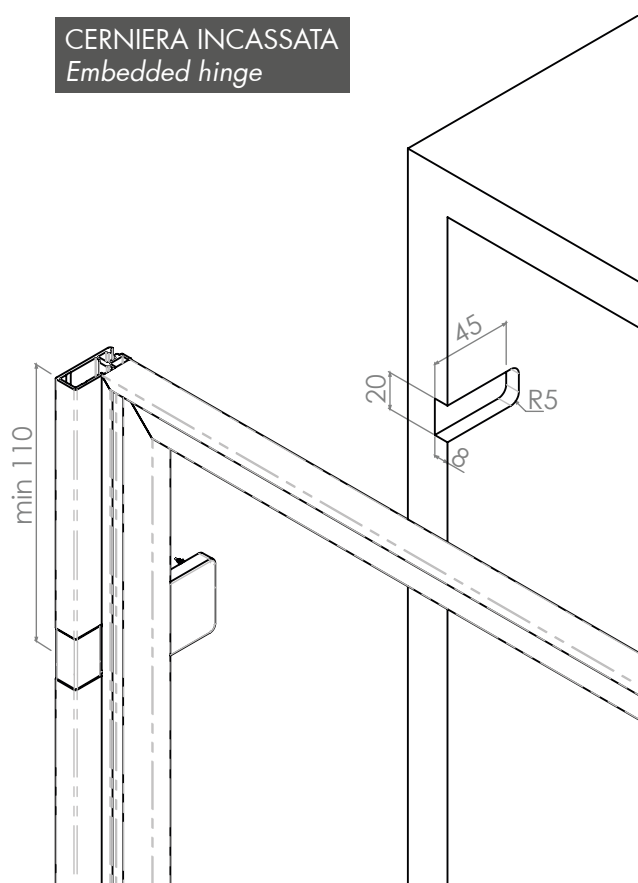

Lavorazioni spalla

Lavorazioni adatte sia per ante in vetro sia per ante in legno.

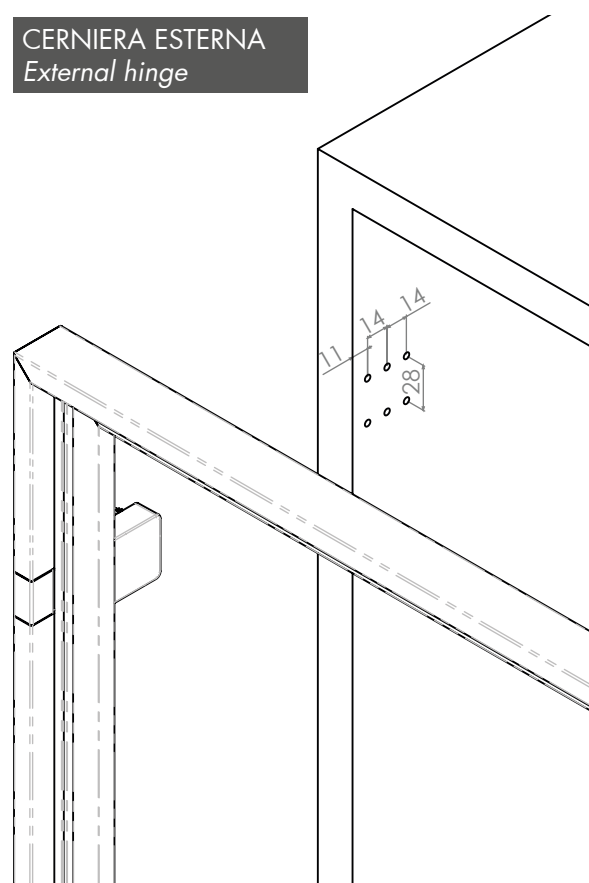

Side Machining

suitable for glass doors and wooden doors.

Regolazioni e finiture

L'anta può essere regolata nelle tre direzioni. Sono disponibili diverse finiture sia per coperchio in plastica sia per la cerniera.

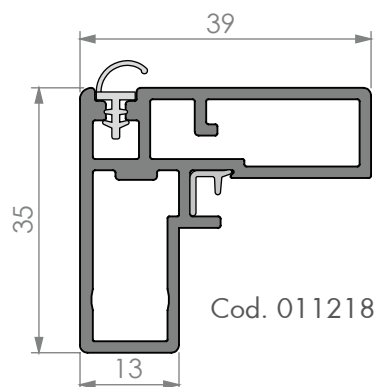

Adjustments and finishes

The door can be adjusted in all three directions. Different finishes are available for both plastic cover and hinge.
