

BRIDGE**800**

BRIDGE800

Sistema scorrevole per ante sospese

Bridge800 è il nuovo scorrevole per ante sospese di Gruppo Pozzi, con sistema di rallentamento integrato. I binari si possono installare a soffitto, oppure a parete tramite staffe e sono nascosti da velette in alluminio personalizzabili in vari colori.

Gli ammortizzatori funzionano sia in apertura sia in chiusura e sono premontati nei carelli.

Il sistema non necessita dell'installazione di alcun binario inferiore.

Il sistema Bridge800 è utilizzabile con ante in legno e con ante in alluminio del peso massimo di 80kg.

Sliding system for suspended door

Bridge800 is the new sliding system for suspended doors by Gruppo Pozzi.

Upper track can be installed to the ceiling or to the wall. A clip-on fixing aluminium covering profile is available in different colours to hide upper track and sliding mechanism after installation.

Soft closing device is integrated in the rollers and works both in opening and closing direction.

No rail required on the floor.

Bridge800 can be used with wooden doors and with aluminium doors with a maximum weight of 80kg.

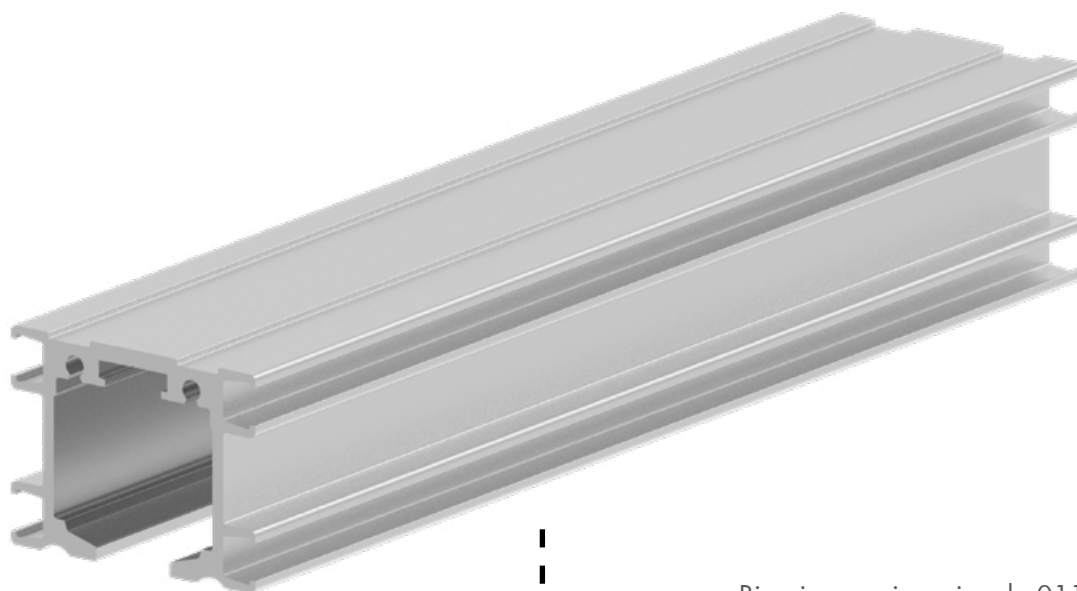

- * SISTEMA SCORREVOLE ANTE SOSPese
Sliding system for suspended doors
- * BINARI AFFIANCABILI PER APPLICAZIONI A PIU' ANTE E VELETTE PERSONALIZZABILI IN VARI COLORI
